What is Simple Wealth?

Simple Wealth is a unit-linked life insurance policy designed to let you invest a single premium, and continue to accumulate wealth by investing additional premiums. The policy also pays a death benefit on the death of the last life insured.

Policy objectives

The objectives are to:

- Invest your premiums into your chosen investment funds with the aim of increasing your policy value.
- Allow you to pay additional premiums at any time.
- Pay a cash sum on the death of the last life insured.

Please be aware that the premiums you pay, after deduction of any applicable fees and charges on the policy, will be invested into the investment funds you select which will determine the value of your policy. The value of your policy may rise or fall in line with the performance of the investment funds linked to your policy.

Who should invest?

Simple Wealth is intended for people who can invest a single premium of at least USD 15,000, with the option to pay additional premiums of at least USD 1,500 (see below for other currencies available).

Currency	USD/EUR	GBP	AED/QAR	BHD
Single premium	15,000	12,000	55,000	5,500
Additional premium	1,500	1,200	5,500	550

Policy term

Simple Wealth is a whole of life policy, which means there is no fixed length of time that the policy has to be held for.

Death benefit

On the death of the last life insured we will pay out 101% of the policy's surrender value.

Investment life cover

This Policy comes with a free Investment life cover as explained below.

- If the youngest life insured is aged 50 or less on the policy start date, and the death of the last life insured occurs within 15 years of the policy start date, we will pay out the greater of 101% of the policy's surrender value or the total premiums paid less any withdrawals.

or

- If the youngest life insured is aged between 51 and 60 on the policy start date, and the death of the last life insured occurs within 5 years of the policy start date, we will pay out the greater of 101% of the policy's surrender value or the total premiums paid less any withdrawals.

Insurance basis

There can be one or two lives insured. The policy will continue until it is fully surrendered, or the policy value falls to zero, or until the death of the last life insured.

Could I lose money?

This policy does not have any capital guarantee. Investments carry varying degree of risks. The value of your invested premiums may fall as well as rise depending on the performance of your investment funds and you may get back less than you originally invested.

What are the risks?

Investment risk

The investment options that Zurich International Life Limited makes available under this policy have different features and risk profiles. The level of risk and potential investment performance will depend on the underlying investment funds you choose.

You should ensure that you are aware of the risks relating to the investment funds that you choose under this policy, including reading the product brochure and the 'Zurich Collection Guide (Mirror, Managed and Money Market funds)'. Copies are available on **zurich.ae** or from your financial professional on request.

If you are in doubt, you should seek professional advice.

Other particular risks

Currency – if the underlying investments chosen are in a currency which is different to that of your policy, currency conversion will apply. All the costs associated with the currency conversion will be charged to the policy. Changes in exchange rates between currencies could reduce your policy value.

Performance – if the growth of the underlying assets does not cover the charges of the product, this will reduce the value of your policy. The value of these funds can fall as well as rise and are not guaranteed. If you choose to invest in more volatile funds and/or funds with a higher risk rating, the risk of not achieving your illustrated growth rate is increased as greater risk/volatility could result in large and sudden falls in the prices of funds.

Withdrawals – if you make a withdrawal and your policy value will be reduced and if the policy value falls to zero it will lapse.

Full surrenders – if you fully surrender your policy within the first three years of paying a premium there will be a surrender charge and you may not get all your money back.

How long should I hold my investment and when can I take money out?

Withdrawals and surrenders

This product is intended for people who can invest over the medium to long term.

There will be a surrender charge of up to 6.25% of the premium in case of a full surrender during the first three years of each premium paid.

You may take a withdrawal at any time, and you can choose to take them regularly on a monthly, quarterly, half-yearly or yearly basis. The minimum amount you can withdraw is USD 400 and your minimum surrender value after taking a withdrawal must be USD 15,000. The other currency equivalents are given below.

Currency	USD/EUR	GBP	AED/QAR	BHD
Minimum amount	400	300	1,500	150
Minimum surrender value	15,000	12,000	55,000	5,500
